I am good with Heidi's suggested edit to the second bubble comment. If, Maureen concurs, I can insert her text from the bubble comment to replace my proposed text.

Thanks for the quick turnaround.

Dean,

I responded to the two bubble comments, Maureen, please weigh in. The TBD tasks are merely place holders and should just be the number of hours multiplied by labor rates they assume. It doesn't really matter which year they propose as when those tasks become necessary we will send a more detailed scope of work for those tasks. I don't think a call is necessary, but am available at 1pm, if you all feel it is beneficial. Thanks, H

Attached is my proposed response. Note that I have two bubble comments that need to be addressed. They center around 3 TDB tasks that I believe are required in the scope. The 4th TBD is project specific and involves potential appeals.

I am open to discuss Monday except 10-1130 and 1 to 2. We could also potentially address with emails.

Dean

Importance: High

Hello,

Please provide the answers to these questions to me within 5 business days in order to avoid them asking for an extension to the proposal submittal. Let me know if you need my help in any of the answers. I did a quick check and I think they mostly require a program response.

I will send the answers to HDR.

Thank you.

Subject: DES CLIN 1, General Electric/Housatonic River Superfund Site, Request for Work Plan and Cost Proposal

CAUTION: [EXTERNAL] This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Good afternoon,

EPA Region 1 is requesting a workplan and cost proposal for the General Electric/Housatonic River Superfund site under JV HDR-APTIM LLC's CLIN 001 RAF DES Contract number 68HE0318D0009. **Please note, there is currently a pending protest associated with this site. While we are able to continue to move forward with fair opportunity, an award of an order for the subject site will be withheld if necessary pending resolution of the protest.**

Attached is the scope of work for this site. A cost reimbursable fixed fee task order with a period of performance from date of issuance thru 09/2023 is anticipated for this site. If awarded, the resultant Task Order will be in accordance with the terms of contract 68HE0318D0009 and all clauses therein. In addition to the current contract clauses, the task order will also include FAR clause 52.204-25, Prohibition on Contracting for Certain Telecommunications and Video Surveillance Services or Equipment, see related representation requirement below.

Instructions:

- Submit the conflict of interest certification required in H-6 Local Clauses EPA-H-09-106 TASK ORDER CONFLICT OF INTEREST CERTIFICATION ALTERNATE I to me within 7 calendar days of this RFP.
- Submit a completed representation of the attached provision FAR 52.204-24, Representation Regarding Certain Telecommunications and Video Surveillance Services or Equipment (AUG 2020) in accordance with the attached solicitation modification (SF-30).

The work plan and cost proposal shall be submitted as follows:

- Proposal will only be evaluated with A&E team subcontractors which were included in the awarded DES base level contract or those A&E team subcontractors that were approved or consented to thereafter by the contract level ACO. The fair opportunity process will not be paused or delayed for resubmissions to comply with this direction. **Contractors proposing A&E team subcontractors that were approved or consented to after contract award shall include evidence of the ACO's approval/consent to ensure the proposal is considered otherwise the proposal will be considered non-responsive.** Any subcontractors for non-A&E services (drilling, fencing, etc.) will be addressed by the TOCO at the TO level if consent is required.
- Include a work plan and cost proposal for tasks noted as "Order" and "Partial Order" in accordance with the format described in Appendix B, Attachment A of the Reports of Work of the contract. Include narrative and costs at the *subtask* level and include descriptions of assumptions where necessary. The offeror shall also submit the TO Proposal Chart (attached) to demonstrate the costs by year.
- Include a separate work plan and cost proposal for tasks noted as "TBD" in the scope of work in accordance with the format described in Appendix B, Attachment A of the Reports of Work of the contract. Assumed level of effort is provided for each task in the scope of work. Include narrative and costs at the *task* level and include descriptions of assumptions where necessary. The offeror shall also submit the Estimated Cost and Estimated Fixed Fee Chart (attached) to demonstrate the costs by year. **IMPORTANT NOTE:** The Government is not obligated to pay any estimated costs or fixed fee in the offeror's proposal for TBD tasks. EPA will request a definitized cost proposal from your firm for the TBD tasks if/when they are required.

Any questions regarding this request are due no later than **09/09/2020 3:00PM EST** and shall be submitted via email to me and the EPA ccc'd recipients of this email.

The Work Plan and Cost Proposal is due no later than **09/23/2020 3:00PM EST** and shall be submitted via email to me and the EPA cc'd recipients of this email.

Confirm receipt of this email.

Thank you.
